Innovating Health & Wellness Within Your World

Oakworks® has been providing customers with innovative products, excellent service, and cost effective solutions for almost 40 years. Oakworks® Medical has collaborated with leaders in the medical specialties we serve to create cutting edge designs that balance the needs of both patients and practitioners. We are committed to identifying the needs of our customers and providing quality solutions that are cost effective and safe.

Oakworks Medical tables and chairs are **FDA listed**, ensuring the highest level of safety for your patients. They are built in our **ISO13485 Certified** plant to guarantee consistently high quality products that perform well. Our confidence in our products is reflected in our industry leading 3 year parts, 2 year labor warranty.

VISION

To bring reward (wealth & relationship) to our employees, suppliers, distributors, and customers, while utilizing our resources to the best of our ability to protect our local environment and world resources.

QUALITY POLICY

OAKWORKS® senior management has a commitment to quality and is engaged to ensure excellence in our products and services.

OAKWORKS® employs principles of design excellence to develop products and services that consistently address customers' and other stakeholders' needs.

OUR PRODUCTS

Oakworks manufactures a broad range of Medical products and we are always expanding our line. If you don't see what you want, tell us what you want. Our customers are our greatest asset, we appreciate the feedback and ideas. If you would like even more information, visit our website at www.oakworksmed.com.

Thank you for your business!

ULTRASOUND TABLES

Excellent ergonomics

Perfect for...

- Heart & Vascular Labs
- Hospitals/Medical Centers
- Women's Health Centers
- Private Practice

*Inspired by the
leading ergonomic
experts in sonography*

SOUND | ERGONOMICS

- Decrease sonographer injury
- Features minimize exam times
- 550 lb. patient weight rating

Vascular with Fowler

Start with a General Ultrasound Table, then simply add the features you want based on the type of ultrasound specialty you perform.

General with Rectangular Top

- Create the perfect table for what you do
- Don't pay for features you don't want
- Up to 12 different options to choose from

Choose a Specialty Table

These models were designed to meet the needs of almost every kind of facility. You can add other options to create the perfect table for your specific requirements.

- 5 preconfigured models to choose from.
- Features grouped to maximize your efficiency.
- Add options to create your perfect table.

ULTRASOUND FEATURES & OPTIONS

ADJUSTABLE ACCESS BACK SUPPORT

Left: #73133 Right: #73132

Adjustable with 5 positions 0-85°, allowing easy access for sonographer to the far side & back support for patients.

10" (25cm) wide x 15.5" (39cm) long

Standard Feature: Right Side - Multi-Specialty, Echocardiography, & Women's Imaging
Left Side - Multi-Specialty

Option: Right Side - Vascular Table with Fowler, Vascular Table without Fowler, General 3-Section, General with Fowler, & General Rectangular Top

Left Side - Vascular Table with Fowler, Vascular Table without Fowler, Women's Imaging, General 3-Section, General with Fowler, & General Rectangular Top

SLIDING CARDIO PANEL

Electric: #73131 Manual: #73130

The sliding cardio panel allows you to adjust the opening to the size you need, up to 15" (38cm). 10" (25cm) wide x 28" (71cm) long. Great for left or right handed scanning. Can also be used as an armrest. Available in manual or electric adjustment options. Available on left side of 30" (76cm) width tables only.

Standard Feature: Manual - Echocardiography

Option: Manual - Multi-Specialty, Vascular Table with Fowler, Vascular Table without Fowler, Women's Imaging, General 3-Section, General with Fowler, & General Rectangular Top

Electric - Multi-Specialty, Echocardiography, Women's Imaging, General 3-Section, & General with Fowler

PATIENT LIFT COMPATIBLE BASE #65893

This option allows the use of patient lifts & easy wheel chair transfers to minimize or eliminate caregiver injuries associated with patient transfers. The high clearance base permits all patient lifts to slide easily under the center of the table for stable transfers while not increasing the low height range of the tables that enable easy wheel chair transfers. Must be ordered with table.

- Includes larger, 5" (13cm) diameter Heavy Duty locking casters
- Provides 6.5" (17cm) clearance for patient lift
- Central Base Locking System not available with this option

Option: Echocardiography, Vascular Table with Fowler, Vascular Table without Fowler, Women's Imaging, General 3-Section, General with Fowler, & General Rectangular Top

FULL FUNCTION CONTROLS

#enquire for part number

You may choose to have two controls: two foot or one hand & one foot.

Option: All Exam Tables & Procedure Chairs

Multi-Function Foot Control

Multi-Function Hand Control

PROCEDURE TRAY #73127

Retractable, removable stainless steel. 12.25" (6cm) x 10.25" (26cm) & holds 2 quarts (1.9 liters). Available on 30" (76cm) wide tables only.

Option: Multi-Specialty, Women's Imaging, & General 3-Section

ACCESSORY MOUNTING PLATE

#62123

Add a face rest or table extender to your table.

Option: all Ultrasound tables.

*Fabric color code must be specified. Fabric color options on page 79.

ULTRASOUND FEATURES & OPTIONS

STIRRUPS #71001

Adjust to a wide range of angles & lengths to accommodate any patient or procedure.

Standard Feature: Multi-Specialty & Women's Imaging

Option: General 3-Section

SIDE RAILS #61781

Increase stability & security for your patient. Fold down out of the way when not in use. 23.5" (60cm) long x 6" (15cm) tall (from surface of table)

Standard Feature: Vascular Tables

Option: Multi-Specialty, Echocardiography, Women's Imaging, General 3-Section, General with Fowler, General Rectangular Top

CENTRAL BASE

LOCKING SYSTEM #61777

Easily lock your table into place with our unique system that allows locking from both sides of the table.

Standard Feature: Multi-Specialty

Option: All Ultrasound Tables (Can not be used with Patient Lift Compatible Base)

ULTRASOUND ACCESSORIES

PRONE PILLOW #66180-T01 **For prone or supine positioning!**

The removable pads and low profile design make this the most comfortable positioning solution for your patient. This product offers an added level of comfort for the patient during any ultrasound procedure. Use the pads individually or as part of the system.

Great for Vascular procedures!

T-RAIL ADAPTER #61902

Choose the best spot for this easily installed and removed accessory capable of handling up to 150 lb (68kg). Can be used with any American standard accessory. 8" (20cm) long

Available on all Ultrasound tables.

TABLE EXTENDER

#63487-T*

Lengthens the table by 12" (31cm) to 84" (213cm) allowing for access to the patient's neck for carotid artery exams & thyroid exams. 24" (61cm) W x 12" (31cm) L

Available On All Ultrasound Tables
Requires Accessory Mounting Plate

QUICKLOCK™ HEAD REST & AERO·CEL PAD #PKG7554*

The platform allows precise cervical flexion and height positioning over a wide range for both prone and supine treatments.

Available On All Ultrasound tables
Requires Accessory Mounting Plate

DETACHABLE

ARM BOARD #62192-T*

Includes clamp to attach Arm Board to the T-rail Adaptor & rotates over 140 degrees. 5" (13cm) wide x 20.5" (52cm) long

Available On All Ultrasound Tables
Requires T-rail Adapter

*Fabric color code must be specified. Fabric color options on page 79.

IMAGING AND PAIN

Very stable designs support excellent imaging.

Perfect for...

- Surgery Centers
- Hospitals/Medical Centers
- Pain Management Facilities
- Ambulatory Surgery Centers
- Private Practice

CFPM400

MANAGEMENT TABLES

Strong and robust lifting column

Rock solid for better imaging.

500 lb. Weight Capacity

A model with 750 lb capacity.

5 Different motions and two top designs

Configure your table to meet your needs and budget.

Large Height Range (18")

Lower minimum heights help facilitate patient transfers and wide height range promotes optimal working heights.

T-RAIL SLIDE & LOCK LATERAL EXTENSIONS

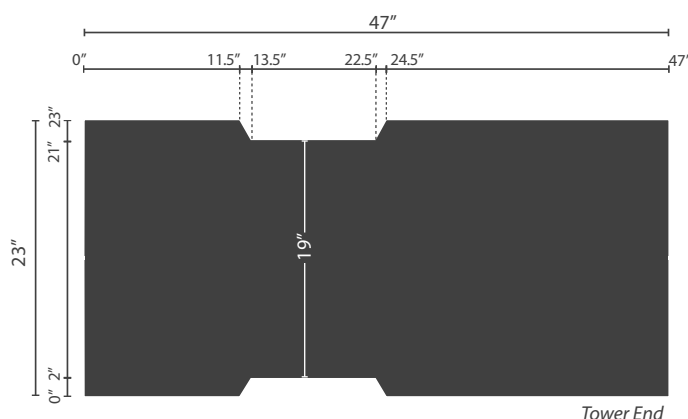

easily lock onto T-rails on
either side of the table.

The two angled lateral
extensions align with the
table's recesses & can be
adjusted along T-rails on
each side.

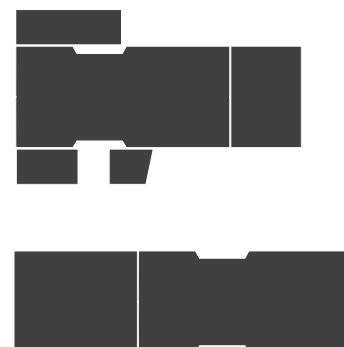

23" W x 47" L CARBON FIBER TOP

Imaging Area 19" W x 23.5" L (48cm x 59cm)

6 RADIOLUCENT EXTENSIONS

Easy to attach & offer many different configurations. Two end extensions and four lateral extensions are included.

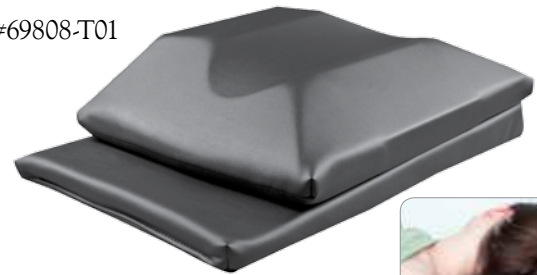

IMAGING & PAIN MANAGEMENT ACCESSORIES

INTERVENTIONAL SUPINE PILLOW SYSTEM #69808-T01

Primarily designed to facilitate cervical transforaminal injections, but useful for other antero-lateral procedures such as facet injections, medial branch blocks, stellate ganglion blocks, scalene injections, brachial plexus blocks and discography.

- Facilitates anterior approaches to cervical procedures
- Creates an unobstructed working space for physicians' hands
- Fully adjustable for both patient and physician needs
- Reusable design is highly radiolucent

Compatible with all tables

FDA listed to regulation #892.1830 – Class I

FLUORO EXTENDER #33975

Made of radiolucent, polycarbonate material, it's organic shape is conducive to a variety of table placement applications.

- 30" long x 23.5" wide x 1/4" thick
- Inserts under the table top pad

Compatible with all imaging tables

FDA listed to regulation #892.1980 – Class I

PATIENT SAFETY STRAP #52115

The Patient Safety Strap helps eliminate unwanted patient movement and injury during surgical procedures. The strap is easily adjusted to accommodate a variety of patient sizes.

- Easily adjusted and repositioned with hook & loop fasteners
- Durable radiolucent material

2 INCLUDED with all Imaging Tables & Urology /Lithotripsy Tables

SINGLE CARBON FIBER ARM BOARD

#42585-T01 - 6" wide #70337-T01 - 7.5" wide

Fully radiolucent with a 180° range of motion, the arm board requires no mounting or attachment hardware and simply slides under the table top pad. It can be used on any fluoroscopy table & will support arms and feet in a variety of positioning configurations. Folds for storage.

- 180° range of motion
- 1" pads
- Requires no mounting or attachment hardware, slides under table top pad
- Comes with removable pad
- Folds for safe & compact storage

Compatible with all imaging tables

Shown here with removable pad.

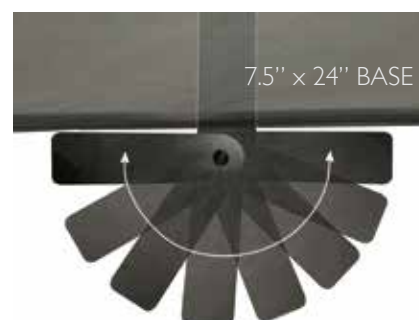

Slides under table top pad.

Folded for storage.

FDA listed to regulation #892.1980 – Class I

6" x 23"
ARM BOARD
or
7.5" x 24"
ARM BOARD

6" ADJUSTABLE T-RAIL CLAMP #63336

The adjustable T-rail clamp can be positioned along the grooved table top edge. Clamp is also removable.

- Accommodates a variety of T-rail attachable accessories
- 150 lb (68kg) weight rating

Available for use on: CFPM tables (Excluding CFPMB301)

FDA listed

ARM HAMMOCK #48751

This unique product will comfortably & easily support your patient's arms when prone. Eliminate the awkward feeling your patients experience by not knowing where to place their arms.

- Easily attached to the Integrated Head Rest table top

CRESCENT FACE REST PAD & COVERS

This radiolucent crescent face rest pad is comfortable for either prone or supine positioning. Use the disposable face rest covers for a hygienic barrier.

Pad is INCLUDED with Integrated Headrest tables. Covers sold separately.

FLAT COVERS
100 PER PACKAGE

#52065 Not FDA Listed.

FITTED COVERS

PROTECTIVE DRAPE

#69390 CFUR301 & CFUR401

#69389 CFLU401

The Protective Table Drape is a valuable accessory for your Lithotripsy or Urology table. The Table Drape is an economically effective splash shield, which protects your table's lifting motor and wiring in various facilities environments. This device simply and quickly attaches to the table's standard T-rails located on the sides of the table.

Available on: CFUR301, CFUR401, CFLU401.

UROLOGY TABLE ACCESSORIES

LIFT ASSIST STIRRUP SYSTEM #72866

The Lift-Assist Stirrup System can handle up to 500 lb. The pneumatic lift assisted stirrups are easy to adjust and lock tight when the rotating hand grip is released. The abduction & adduction are done at the hand grip handle with no need to go back to the side rail socket. The rotation of the system was designed to mimic the natural motion of the patient's hip. They can travel a full 120 degrees from 90 to -30. The boot liner is made of a soft material that encapsulates the patient's foot & the boot system offers lateral support to reduce potential nerve damage. System complete with boots, clamshell pads, and side rail sockets.

Compatible with Urology & Lithotripsy Tables

BASIC STIRRUP LEG HOLDERS #72869

The Basic Stirrup Leg Holders offer support for the patient's feet & legs. The included reusable boot liners are made of a soft material that encapsulates the patient's foot. Easily mount the unit to the table with any 5/8" side rail socket, such as the Stainless Steel Clark Socket (sold separately.)

Compatible with Urology & Lithotripsy Tables

STAINLESS STEEL CLARK SOCKET #72870

The Stainless Steel Clark Socket mounts to any standard T-rail & fits up to 5/8" round post.

Compatible with Urology & Lithotripsy Tables

UROLOGY TABLE ACCESSORIES

ADJUSTABLE KNEE CRUTCH SUPPORT #72872

These Adjustable Knee Crutch Supports include a soft pad and adjustable extension to allow for abduction. The knee crutch itself is approx. 9.5" wide and 12" long (5" above the knee bend and 7" below the knee bend.) Sold as a pair, these knee crutches mount to the table with side rail sockets, such as the Stainless Steel Clark Socket (sold separately.)

Compatible with Urology & Lithotripsy Tables

TOTAL KNEE STABILIZER #72873

This Total Knee Stabilizer supports the knee during arthroscopic procedures. This device will offer stable support to a flexed leg during total knee procedures. Also known as a Knee Post, the radiolucent design can be adjusted in height by using the 10 inch post which is attached to the table with a side rail socket, such as the Stainless Steel Clark Socket (sold separately.)

Compatible with Urology & Lithotripsy Tables

RAIL / TABLE MOUNTED ADJUSTABLE IV POLE- WITH INTEGRATED CLAMP #72871

This adjustable IV Pole can be mounted to the table using the integrated clamp. This clamp will mount to most surfaces up to 1 1/4" diameter including standard T-rails. Rotate 180° & adjust in height from 12" - 24".

Compatible with Urology & Lithotripsy Tables

SPINE POSITIONING SYSTEM II

An integral component of the pain management suite

- **Optimal Imaging**
Radiolucency & flexibility for ideal cervical, thoracic & lumbar visualization.
- **Enhanced Patient Comfort**
Minimize unwanted movement & reduce procedure time.
- **Stable Design**
Large contoured torso pad cradles patient & the strap securely fastens the system to the table.

RADIOLUCENT FRAME

Used to support the Torso support & Crescent face rest pad. One cam lock facilitates cervical flexion & extension.

Adequate free space under see through face section for aeration, supplemental O₂, jaw/face contact as necessary; prevents patient overheating, can more easily communicate with the patient without sound muffling.

STABILIZING STRAP

Secures SPS II to the table.

SPINE POSITIONING SYSTEM II #70100-T01

FEATURES	
Radiolucent Frame with Face Rest	12" x 32.5" (30 x 84cm)
Crescent Face Rest Pad (#62008-T01)	12" (30cm) diameter
Contoured Torso Support Pad	6.5" x 23" x 30" (17 x 58 x 76cm)
Contoured Torso Wedge	2" x 22" x 29" (5 x 56 x 74cm)
Large Adjuster Pad	8" x 22" x 2" (20 x 56 x 5cm)
Small Adjuster Pad	7" x 12" x 1.5" (18 x 30 x 4cm)
8" Semi-Round Bolster	6" x 8" x 26" (15 x 20 x 66cm)
Carry Case	For storage when not in use
Warranty	Fabric, Frame & Padding - 2 years
Safety Listings	FDA listed, CE marked

SPINE POSITIONING SYSTEM II

The Spine Positioning System II (SPS II) is an integral component of the pain management fluoroscopy suite. With this system, procedural set up time is reduced, patient comfort is enhanced, & unwanted movement is minimized. Most importantly, the target anatomy is more readily visualized, which allows the physician to perform spine procedures in a more efficient & secure manner.

OAKWORKS® designed the SPS II in an effort to achieve the critical balance between optimal imaging & patient comfort. The radiolucent adjustable frame and versatile padding system provide a metal-free imaging support platform capable of quickly positioning a wide variety of patient physiques. The adjustable face rest position provides individualized positioning for all types of cervical procedures & anatomy. The contoured torso support pad is complimented by a host of uniquely shaped and sized adjuster pads & wedges that enable a multitude of positioning combinations for ideal patient comfort & imaging needs for all spinal column procedures.

The SPS II was designed with the input of experienced interventional spine physicians under the direction of Paul Dreyfuss, MD. An extensive trial period was undertaken such that various modifications were made to accommodate the precise needs of the interventional pain physician & their patients.

PRIMARY ADVANTAGES OF THE SPINE POSITIONING SYSTEM II:

- No metal (radiopaque) components are present under the spine- unobstructed visibility of the entire spine from C0-C1 to the coccyx with all imaging angles (AP, oblique & lateral). All radiopaque components are placed proximal to the forehead.
- Adjustment easily made to maximize opening & imaging of the cervico-thoracic junction.
- Secure & easy to use single locking face rest mechanism to adjust cervical flexion, extension & height.
- Torso pad elevation under the chest allows for the shoulders to drop out of the plane of imaging when obtaining a lower cervical and upper thoracic lateral & oblique views.
- Adequate free space under open air face section for aeration, supplemental O2, jaw/face contact as necessary; prevents patient overheating and easy communication with the patient without sound muffling.
- Contoured torso support allows the shoulders to drop yet be adducted/slightly extended next to the body for comfort where they are also less likely to lose position/fall off the fluoroscopic table.
- Current design obviates the need to pull the arms back to the side to obtain imaging of the cervico-thoracic junction; the more comfortable adducted & slightly extended position suffices.
- Adequate adjuster pads to maximize torso build up for larger frame patients.
- Not only for cervical cases; also useful for thoracic & lumbar cases.
- Comfortable for patients with cervical pain when longer duration thoracic & lumbar cases are performed.
- Softer foam under the breasts and shoulders for comfort; firmer central foam for enhanced stability.
- Wider & longer torso pad gives extra support resulting in less sway and improved patient comfort.
- Torso pad restraint strap secures the pad to the table; more stability when mounting & dismounting the system.
- Torso pad with abdominal recess for extra comfort and support.
- All prone positioning needs met with the SPS II; no need for additional pillows.
- Very firm adjuster wedges prevent undue compression & loss of the original position.

PROCEDURE CHAIRS

*Very comfortable designs
support longer treatments.*

Perfect for...

- Hospital/Medical Centers
- Private Practice

Includes clamp to attach Arm Board to the T-rail Adaptor & rotates over 140 degrees. 5" (13cm) wide x 20.5" (52cm) long

Available On PG Series
Requires Trail Adapter

*Fabric color code must be specified. Fabric color options on page 79.

PHYSICAL THERAPY

*Translating evidence into practice
via ergonomically efficient products.*

Perfect for...

- PT Clinics
- Rehab Centers
- Private Practice
- Hospital/Medical Centers

PT400 with Locking Casters

TABLES

Excellent Ergonomics

Unique base design takes up less space than cantilevered designs in small spaces and has more foot space underneath, making it easier for PTs to position themselves efficiently.

*PT400M with
Arm Rests and
Extension Pad*

Safer Designs

Products feature a **550 lb. patient weight capacity** and are extremely stable.

ADA Compliant Height Range

With all tables going as low as 16"-19", safely transferring patients is possible and the tables could be eligible for tax breaks.
